

Baycinco/SL

CR-1200

Technical Data

Installed Power	0,5 KW
Power Supply	220 V, 50/60 Hz
Air Consumption	30 lt/min at 6 bar
Dimensions (A x B x H)	2,4 x 0,8 x 1,6 mt
Weight	600 Kg

Function and output

The machine cuts into sleeves the wound tubes coming from machine MRP-480.

An operator must introduce the wound tube into the machine. The cut sleeves are pushed out by the machine itself.

The output depends on the skill of the operator.

Input *wound tubes*

Output *roller sleeves*
